The date of mailing of any payment by U. S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier Contractor performing under the primary contract. A Contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the University.

T. SEVERABILITY: The provisions of this contract shall be deemed to be severable, and should any or more of such provisions be declared or adjudged to be invalid or unenforceable, the remaining provisions shall be unaffected thereby and shall remain in full force and effect.

U. TERMINATION WITH CAUSE:

1. In the event that the Contractor shall for any reason or through any cause be in default of the terms of the contract, the University may give the Contractor written notice of such default by certified mail/return receipt requested.

2. Prior to termination of the contract, the University shall give the Contractor and its surety ten (10) calendar day's written notice, during which the Contractor and/or his surety may rectify the cause of the termination. If rectified to the satisfaction of the University within said ten (10) days, the University may rescind the notice of termination. If Contractor does not, the termination for cause shall become effective at the end of the ten-day (10) notice period.

3. In the alternative, the University may postpone the effective date of the termination notice, at its sole discretion, if it should receive reassurances from the Contractor and/or its surety that the causes of termination will be remedied in a time and manner which the University finds acceptable. If at any time more than ten (10) days after the notice of termination, the University determines that Contractor and/or its surety has not or is not likely to rectify the causes of termination in an acceptable manner or within the time allowed, then the University may immediately terminate the contract for cause by giving written notice to the Contractor and its surety. In no event shall termination for cause terminate the obligations of the Contractor's surety on its payment and performance bonds.

4. Notice of terminations, whether initial or given after a period of postponement, may be served upon the Contractor and the surety by mail or any other means at their last known places of business in Virginia or elsewhere, by delivery to any officer or management/supervisory employee of either wherever they may be found, or, if no such officer, employee or place of business is known or can be found by reasonable inquiry within three (3) days, by posting the notice at the job site. Failure to accept or pick up registered or certified mail addressed to the last known address shall be deemed to be delivery.

5. Upon termination, the Contractor shall withdraw its personnel and equipment, cease performance of any further work under the contract, and turn over to the University any work in process for which payment has been made.

6. The University shall take possession of the premises and of all materials, tools, and appliances thereon and finish the work by whatever method it may deem expedient. In such case the Contractor shall not be entitled to receive any further payment. If the expense of finishing the work, including compensation for additional managerial and administrative services shall exceed the unpaid balance of the contract price, the Contractor shall pay the difference to the University, together with any other expenses of terminating the contract and having it completed by others.

7. In the event of violations of law, safety or health standards and regulations, the contract may be immediately cancelled and terminated by the University and provisions herein with respect to opportunity to cure default shall not be applicable.

V. TERMINATION BY UNIVERSITY FOR CONVENIENCE:

1. The University may terminate any resulting contract at any time for convenience, in whole or in part, upon giving the Contractor notice of such termination. Upon such termination, the Contractor shall

immediately cease work and remove from the project site all of its labor forces and materials that the University elects not to purchase or to assume in the manner hereinafter provided. Upon such termination, the Contractor shall take such steps as University may require to assign to the University the Contractor's interest in all subcontracts and purchase orders designated by University. After all such steps have been taken to University's satisfaction, the Contractor shall receive as full compensation for termination and assignment the following:

- i. All amounts due for work performed subsequent to the latest Request for Payment through the date of termination;
 - ii. Reasonable compensation for the actual cost of demobilization incurred by the Contractor as a direct result of such termination;
 - iii. The Contractor shall not be entitled to any compensation for lost profits or for any other type of contractual compensation or damage other than those provided by the preceding sentence; and
 - iv. Upon payment of the forgoing, University shall have no further obligations to the Contractor of any nature.
2. In no event shall termination for the convenience of the University terminate the obligations of the Contractor's surety on its payment and performance bonds.

W. TESTING AND INSPECTION: The University reserves the right to conduct any test/inspection it may deem advisable to assure goods and services conform to the specifications.

X. WAIVER: No failure of the University to exercise any right or power given to it by law or by any resulting contract, or to insist upon strict compliance by Contractor with any of the provisions of any resulting contract, and no custom or practice of the parties at variance with the terms hereof, shall constitute a waiver of the University's right to demand strict compliance with the terms of any resulting contract.

The Contractor(s) will provide semi-annual usage reports for all entities accessing the contract(s). It is understood and agreed that the University is not responsible for the acts or omissions of any entity, and will not be considered in default of the contract(s) no matter the circumstances.

Use of this contract does not preclude any participating entity from using other contracts or competitive processes as the need may be.
